## **Hubbardton Forge is named winner of the Woman's Day "2005 KB Awards"**

Woman's Day magazine announced the 2005 KB Awards winners in the Spring 2005 issue of their special interest publication "Kitchens & Baths," available on newsstands through March 8, 2005. Hubbardton Forge wrapped up the awards in the lighting category. The "Mackintosh oval pendant" was named the winner, and the complementary "Mackintosh wall sconce" received honorable mention.

The KB Awards are designed to celebrate the year's best kitchen and bath products, and granted to entries that "surpass all others in technological innovation and aesthetic appeal." Called "the best of the best" kitchen and bath products, the winning products for 15 categories will receive the awards at a formal presentation at the National Kitchen & Bath Association Convention held in Las Vegas in April.
